## P R O F I L E

My name is Ilgar Huseynli. I was born on March 21, 1996 in Gobustan settlement of Garadagh district. Since I have a great passion for computers since childhood, I decided to continue my education in this area. While in higher education, I turned to programming and began to try myself in this field. After graduating, I joined the military. After completing my military service, I began to study web programming in depth. Now I am gaining new knowledge and experience in this field, and I continue on my way by doing successful work.
